

# Nano Cleaner

## Cleaning agent for wooden floors

### Product description

*Nano Cleaner* is a cleaning agent for wooden floors.. *Nano Cleaner* is specially designed for water based lacquers and heavy cleaning of oiled floors. *Nano Cleaner* works even perfectly on all washable surfaces such as painted/finished surfaces, stone, laminate, tiles, glass, sanitary ware etc.

*Nano Cleaner Spray* is ready to use and must not be diluted.

### Preparation

Daily cleaning on parquet floors has to be carried out using dry cleaning methods, e.g. dry mopping and vacuuming. Remove all loose particles which might scratch the surface.

### Instructions

VARNISHED FLOORS: dilute *Nano Cleaner* 1:100 in warm water (20°C) (100ml in 10l).

*Nano Cleaner Spray* is sprayed directly on the floor. Wipe the floor carefully with a damp mop. Subsequent rinsing is not necessary. Always follow dilution instructions.

**Never soak wood floors – remove water immediately.**

OILED FLOORS. For heavy cleaning of oiled floors only. After cleaning with *Nano Cleaner* the floor has to be maintained with *Nano Centic2* maintenance oil. For normal daily cleaning use *Nano Refresher pro oil* floor soap.

Dilute 1:50 in hot water (30°C) (200ml in 10l).

*Nano Cleaner Spray* is sprayed directly on the floor. Wipe the floor carefully with a damp mop. If the dirt is not removed, use the concentrated cleaner and dilute 1:10. Work with red or blue pad and buffing machine. Collect dirty water and foam continuously. Let the floor dry completely before it is treated with *Nano Centic2* maintenance oil.

**Never soak wood floors – remove water immediately.**

### Cleaning

Cleaning mops and other tools can be washed out with water.

### Health and Safety

*Nano Cleaner* can irritate eyes and skin. Keep out of the reach of children. In the event of contact with eyes, rinse immediately with water, and contact a doctor. In the event of skin contact, wash immediately with plenty of water. Normal care necessary for handling of chemical products must be taken. Ensure good ventilation. Use protective glasses and gloves if there is a risk of splashing. For further information see Safety Data Sheet.

### Technical Service

If you have any questions please contact Nanosol Technical Service on telephone +46 303 56 329, or your local agent.

### Technical data
