

NanoPolish Sport

Product description

NanoPolish Sport is recommended for maintenance of finished sports floors, staircases etc., where a higher friction is desired. **NanoPolish Sport** is according to DIN 18032 part 2 suitable for sport floors. **NanoPolish Sport** evens out visible wear, e.g. scratches, and protects the surface of the floor as well as giving it a fine gloss. For indoor use only.

Preparation

Remove dirt, dust and other impurities. Wax and dirty layers of old polish has to be removed using **NanoPolish Remover**.

Application

NanoPolish Sport is applied in an even layer using a clean, damp cloth or a polish applicator. Rinse the cloth when it gets dirty and wring it out well. Avoid working in areas which already have started to dry. For floors with heavy traffic 2 applications are recommended. **NanoPolish Sport** does not require polishing, but if a smoother and harder surface is desired, a mechanical polisher with a white polishing pad can be used. **NanoPolish Sport** must not be applied on newly finished floors (under 1 month) or on floors where to finish is worn out down to the bare wood. For cleaning of the treated floor a neutral cleaning agent must be used, i.e. the pH must not exceed 9.

Cleaning

Rinse cloths and other tools with water.

Health and Safety

NanoPolish Sport is not classified under the C.H.I.P. regulations. Normal care necessary for handling of chemical products must be taken. Ensure good ventilation. Use protective glasses and gloves if there is a risk of splashing. In the event of skin contact wash with soap and water. In the event of splashes in the eyes rinse with plenty of water. For further information see Safety Data Sheet.
